

**Physical Education and Sports Studies for Students with Special Educational Needs
Conducted by the Ministry of National Education**

CEMAL ÖZDEMİR

General Directorate of Special Education and Guidance Services

Head of Special Education and Inclusion Department

As Special Education and Guidance Services General Directorate of the Ministry of Education, we offer many activities to ensure the physical development of students who need special education and study at special education schools, and to support their sports activities. In the first part of the speech at the workshop, it is planned to give detailed information about these activities. In the second part of the speech, as the Special Education and Guidance Services General Directorate of the Ministry of Education, we plan to talk about the action plan regarding physical education and sports studies directed at students of different age groups and levels, with special educational needs who study at special education institutions.
